EXPERIENCE

2020 **MOBILE SOFTWARE ENGINEER**
Mkobo Microfinance Bank| Nov 2019 - Present

I, design the overall architecture for the organisation's mobile applications(iOS/Android - React Native).
- translate the UI/UX wireframes into actual code for visual elements of the applications.
- develop, test and operate end-to-end software using related optimization and knowledge systems.
- measure and define parameters for transitioning of features into a production environment.

2019 **FULLSTACK SOFTWARE ENGINEER**
Probus Technologies | Sep 2018 - Present

I, work with a team of great minds to develop applications at national scale.
- work with web stacks such as React JS, Next JS, Vue JS, Tailwind CSS, PostCSS, Laravel (backend Engineering), MySQL, Firebase(database, Messaging, Auth).
- develop mobile applications on the iOS platform using Swift programming language
- develop cross-platform mobile applications with React-Native
